

PETITION

The Hondius Water Users Association, Inc. ("HWUA") will enter into an agreement with the Town of Estes Park ("Town") which benefits the community's long term potable water supply. HWUA owns and operates the HWUA water system, which serves approximately 80 customers. Upon successful completion of the proposed functional replacement of distribution pipe and associated components, the Town will incorporate HWUA's distribution system into the Town's system. The design and construction will be funded by HWUA users through a special water rate established by the Town of Estes Park Board of Trustees for the purpose of payment for potable water delivered and repayment of project financing.

The undersigned are property owners currently receiving water service through HWUA and by the execution of this Petition, are petitioning the Town of Estes Park Board of Trustees to continue the process to construct a functional replacement of HWUA's potable water distribution system. Following construction of the new system, the new system will be transferred by HWUA to the Town of Estes Park. Upon transfer of the system, the Town will be responsible for the maintenance and operation of the system. All water users will be billed by the Town of Estes Park Water Utility Billing for the following:

1. Individual customers will be billed for water used and for the customer's share of project financing; and
2. Individual customers shall be governed by the rules and regulations of the Town of Estes Park's Water Utility System; and
3. Failure of a customer to pay for water used and project financing may result in shut off of the water supply to the customer and/or a lien against the property for the amount due and owing.
